Robust and reliable, with outstanding performance

The imageRUNNER ADVANCE DX 4700 series offers a wide range of solution for the modern day office in its compact design. This highly dependable series is ideal to fulfill daily office tasks.

WORKFLOW EFFICIENCY

- Intuitive touchscreen provides users with smartphone-like usability, making navigation a breeze.

- Industry leading Single-Pass document feeder option to allow up to 270 images/min scanning, supports paper skew prevention and comes with advanced anti-dust/streak measures.

- Advance personalisation enables a unique, personal experience tailored to meet each user's workflow needs. Settings, such as display language, initial log-in screen, and accessibility options, can be synchronised across multiple devices for consistency.

- Canon's MEAP platform provides process optimisation, by integrating with a range of powerful document, capture and output management solutions.

- Scalable support for mobile where users can connect directly to the device with Direct Access Point. Capture, scan or print documents easily with the Canon Print Business app.

- Intelligent Recovery wakes device from sleep mode when user is approaching device via motion sensor technology.

- Various finishing functions such as Staple-on-Demand, ECO-Staple, saddle stitch, double/corner stapling and foldings are available as an option.

COST MANAGEMENT

- The ability to apply print policies, monitor output, and restrict usage by user helps reduce unnecessary printing, resulting in lower total document cost.

- Seamless integration with output management solutions, such as uniFLOW or uniFLOW Online Express for detailed tracking, reporting, and cost analysis.

- Quality and reliability, combined with remote diagnostics and assistance, can help reduce costs by minimising downtime and time spent by IT.

- Consistent user operation combined with remote and centralised fleet management can help simplify IT management of devices and entire fleets.

Business Can Be Simple

QUALITY AND RELIABILITY

- Canon's signature reliability and engine technologies contribute to high-quality output to meet the needs of busy department.

- State-of-the-art imaging technologies and toner allow for consistent images in rich black-and-white tones and 1 200dpi print resolution.

- Canon's device management tools give you a centralised point of control across your entire fleet, upgrade devices remotely, check device and consumables status and capture meter readings.

- Optional PCL and optional Adobe® PostScript® 3™ print driver allows seamless integration with enterprise applications.

- Remote diagnostics allow timely, accurate and effective resolution.

- Intuitive user maintenance videos and status notifications available to help achieve maximum uptime and keep supplies replenished.

SUSTAINABILITY

- Fusing technologies and innovative sleep mode features help lower overall energy consumption.

- Minimise paper wastage by holding jobs at the device with Force Hold Print. Choose to preview your print jobs or even change print settings at the device to achieve the desired results at the first time of printing.

- Consumes as little as 0.9W in sleep mode.

SECURITY

- Control who has access to the device with different authentication methods such as picture login, department ID, user authentication and card access.

- Ensure information privacy and security across your network with IPsec, port filtering capabilities, and SSL technology.

- Enhance document confidentiality with encrypted secure print, secure print, secure watermark, encrypted PDF and device signature PDF.

- Ensure device is safe from unknown firmware installation with system verification at startup.

- Integrate with third-party solutions for complete monitoring protection.
